

WCPH will now be using My Chart to communicate your lab results and prescription requests as of July 1st, 2017. Lab results and Rx requests will no longer be taken by call in phone messages.

What is My Chart?

- *My Chart is electronic access to your health information through a portal that only you can access. You can access medical records from any device-anywhere, anytime.*
- *You can manage your appointments*
- *Request medication refills*
- *Connect to your physician and care teams and even upload images to share with your provider.*
- *Update your health history, allergies, medications and yearly requirements such as flu shots & mammograms*
- *View and download content, such as medical history, imaging reports or lab results.*

You can enroll by requesting a My Chart activation code during today's office visit. This code will enable you to login and create your own user ID and password. You can also request an activation code by contacting Health Information Management at 443-481-4131.

Messages sent to your provider are not monitored 24/7. If you are experiencing a medical emergency, you should call 911 immediately. For questions about how to use My Chart, please call 443-481-4131.

I understand that all test results and prescription requests must be accessed through the My Chart Patient Portal, or by appointment with a provider.

We can assist you putting the Appt on your smart phone.
